- Paper Towels
- Plastic Zip Bags
- Spray Bottle & H2O
- Permanent Marker

Seed Starting in Plastic Baggies

PREP	WATER	SEAL & SAVE	WAIT & SEE
<p>1- Fold a paper towel in half.</p> <p>2- Place 4-6 Pea Seeds on the paper towel so they do not touch.</p>	<p>3- Spray everything with water until damp.</p> <p>4- Fold the paper towel until it fits inside the plastic bag. Make sure it covers the seeds.</p>	<p>5- Close the zipper seal securely.</p> <p>6- Write "Peas," the date, and the child's name on the bag.</p>	<p>7- Place the bag near a heating vent or tape to the window.</p> <p>8- Check daily for germination! Pea seeds can sprout in as little as 24 hours!</p>
